Consider it covered.

WILD WELL
CONTROL

As the leading provider of comprehensive emergency response and resolution, prevention, and operational services for the oil and gas industry, Wild Well offers innovative solutions to complex issues. No other company can claim a more experienced team, more jobs successfully completed, or more industry personnel trained each year.

8 strategic equipment locations around the world

NO. 1 preferred provider to oil and gas operators worldwide

20+ average years of field experience by senior well control specialists and engineers

Well Control Response

- Well blowout and firefighting
- Capping
- Relief well planning and Implementation
- Pressure control
- Environmental management
- Hot tap and valve drill
- Cryogenic freeze
- ControlSeal resin sealant

Well Control Engineering

- Well design and modeling
- Relief well planning and engineering
- Well kill engineering and modeling
- Pressure control resolution
- Well control advisory and project management

Advanced Engineering

- Flow assurance and thermal engineering
- Multiphase flow and computational fluid dynamics
- Multi-physics simulations
- Mechanical and structural design
- Advanced structural analysis
- 3D laser scanning and survey

Risk Management & Training

- Response planning services
- Rigsite assessment through kick drills
- Well control equipment surveys
- Well-specific readiness training
- Well control training
- Accumulator training

Marine Well Services

- 7Series subsea riserless intervention
- DeepRange riserless subsea P&A
- WellCONTAINED™

CSI Technologies

- Cement engineering services
- Lab and testing services
- Cement field operations support
- Cement failure investigation
- Research and product development

80%

of all global well control incidents resolved by Wild Well

14,000

industry personnel trained annually in well control

WILD WELL CONTROL

Wild Well stands for safety, integrity, and competence—supplying customized solutions to pressure control and operational issues wherever, whenever they occur.

- The world's go-to experts for engineered services and solutions to mitigate or control well incidents
- Protecting assets onshore and offshore including the provision of highly specialized subsea containment solutions
- Providing extensive experience in both emergency and non-emergency aspects of well control

Wild Well offers a wide range of core operational and intervention services for the global oil and gas industry.

- Engineering services and technical support
- Preparedness and response planning
- Specialized services and response equipment
- Industry leaders in training, from rig specific to well control to incident management

QUALITY SYSTEM CERTIFICATION DNV·GL ISO 9001

ENVIRONMENTAL SYSTEM CERTIFICATION DNV·GL ISO 14001

SAFETY SYSTEM CERTIFICATION DNV·GL OHSAS 18001

That was then.

Wild Well has built a lasting legacy upon dependability, courage, and innovation.

This is next.

Our new brand identity conveys our promise to carry that legacy into the future as we continue to innovate and evolve.
